TECHNICAL STACK

- **Frontend:** Javascript, React Js, Redux, Next.js, React Native, Typescript, Tailwind CSS, Responsive Design, scalable systems, UI/UX, Three.js, Vue.js
- **Backend:** Node.js, Express.js, Python, RESTful APIs, Python, Flask
- **DevOps:** Docker, Kubernetes, GCP, AWS, Azure
- **Database:** MySQL, MongoDB, Firebase, PostgreSQL
- **Blockchain:** Solidity, Web3.js, Ethers.js, Smart Contracts, Rust, dApp Development, Token Swaps, Wallet Integration

Full Stack Developer | SyneosHealth

India, Remote | Oct'23 – Present

Stack:- Next.js, React.js, Node.js, MongoDB, Tailwind CSS, GCP, Firebase, Docker, Three.js, Python, Flask

- Built Developed full-stack web features using React.js, Next.js (frontend) and Go (backend Microservices Architecture), enhancing page load performance by 20%.
- Focused on type safety and modular design patterns using TypeScript, improving code maintainability and team onboarding.
- Developed a responsive web-based dashboard using Flask and Python to visualize and monitor data in real-time.

Full Stack Developer | 66Degrees

India, Remote | Jan'23 – Oct'23

Stack:- Next.js, React.js, Node.js, MongoDB, Tailwind CSS, GCP, Firebase, Docker, Three.js

- Built and deployed 2 production-ready web applications utilizing React.js, Next.js, and Node.js, resulting in a 15% increase in user engagement/conversion rate.
- Optimized front-end performance by 12% through code-splitting, lazy loading, and image optimization techniques in Next.js.

Full Stack Developer | Freelancer

India, Remote | Jan'20 - Jan'23

Stack:- Next.js, React.js, React Native, Solidity, Web3.js, Node.js, MongoDB, Tailwind CSS, Bootstrap, SQL, PostgreSQL, Linux, Solidity, Web3.js, Ethers.js, Smart Contracts, Rust, Three.js

- Gathering & analyzing user requirements of clients from USA, UK, Spain, and Canada.
- Collaborated with designers to implement pixel-perfect UI/UX experiences using Tailwind CSS, ensuring responsiveness across all devices.
- Mentored junior developers on best practices in React development.
- Integrated MetaMask wallet for secure token swaps and on-chain interactions.

Full Stack Developer | WebSpero Solutions Mohali, In | Aug'19-Jan'20

Stack:- HTML, CSS, Angular, React.js, Node.js, MongoDB, Bootstrap, Typescript

- Led the development of 5 complex and scalable front-end features using React.js driving a 15% improvement in application performance.
- Optimized front-end performance by 20% through code-splitting, lazy loading, and image optimization techniques.

Frontend Developer | Webcome Technologies

Yamunanagar, In | Apr'18-Aug'19

Stack:- HTML, CSS, Angular, React.js, Node.js, MongoDB, Bootstrap

- Contributed to the development of a 25% increase in user engagement/conversion rate through the implementation of engaging UI elements in React.
- Maintained a strong understanding of web development fundamentals, including HTML, CSS, and JavaScript.

Experienced React/Next.js Developer with 6.5+ years of expertise in developing and maintaining high-performance web applications. Proficient in front-end technologies such as HTML, CSS, and JavaScript, Python with a strong focus on delivering scalable, responsive, and user-friendly solutions. Adept at working independently and collaborating with cross-functional teams to achieve business objectives. Passionate about solving complex problems and creating innovative software solutions.
